

*Wyoming
Recycling
Directory*

BUSINESS COUNCIL

2009 – 2010

The *Wyoming Recycling Directory* was prepared with Stripper Well Funds under grant number NT43207.

Prepared by
Peak Environmental Management, Inc.
P. O. Box 404
Green River, Wyoming 82935
307-875-2893

under contract to

Wyoming Business Council
Mineral, Energy, and Transportation Division
Federal Energy Programs
214 West 15th Street
Cheyenne, Wyoming 82002
307-777-2824

Additional copies of this directory can be obtained by contacting:

Wyoming Business Council
Mineral, Energy, and Transportation Division
Federal Energy Programs
307-777-2824
Sherry.Hughes@Wybusiness.Org

The *Wyoming Recycling Directory* is also available on the Internet by accessing the Wyoming Business Council Web site at:

<http://www.wyomingbusiness.org/business/energy.aspx> and scroll down to find the most recent version of the Wyoming Recycling Directory

or the Wyoming Department of Environmental Quality Web site at:

<http://deq.state.wy.us/shwd/Recycling/> and scroll down to find the most recent version of the Wyoming Recycling Directory.

Duplication or quotation of material in this publication is welcome if credit is given to: **Wyoming Business Council**

Mineral, Energy, and Transportation Division
Federal Energy Programs

and to

Peak Environmental Management, Inc.

Directory Updates

This directory will be updated as state funds are available. Every effort was made to contact profit and not-for-profit recycling centers in Wyoming. Any errors or omissions are unintentional. A form (which may be copied) is provided in this directory for revisions, additions of new organizations, recycling centers, and businesses which utilize recyclable waste to produce saleable materials.

Updated information should be directed to:

Peak Environmental Management, Inc.
P. O. Box 404
Green River, Wyoming 82935
307-875-2893
FAX 307-875-5179
Email: myra@peakenvironmental.com

Goals of this directory are to provide information to the public and private sectors and the general public, to improve economic development in recycling operations, and to enhance natural resource management.

Inquiries and Information

Prior to delivering recyclables to a center, the center should be contacted to determine current hours, location, accepted materials, or packaging requirements. Each recycling center adjusts in response to market conditions.

General inquiries and information requests regarding recycling should be directed to community contacts, public interest organizations, local recycling centers, or the following:

Wyoming Business Council
Mineral, Energy, and Transportation Division
214 West 15th Street
Cheyenne, Wyoming 82002
307-777-2824
FAX 307-777-2935
Email: Sherry.Hughes@Wybusiness.Org

Recyclables' Value

Since the value of many recyclables and the cost of handling and transportation to end-markets are substantial, most centers do not pay money for items such as glass or plastic. Some centers pay for aluminum and ferrous and non-ferrous metals. Centers should be contacted to determine if any money is paid for accepted materials.

Preparation and Packaging of Recyclables

Each type of material must be separated, e.g. glass cannot be combined with aluminum, and materials should be deposited in appropriate containers. Each center has specific preparation and packaging requirements which are based on quality control requirements established by the purchaser of the recyclables and by quality standards for end products. Although general guidelines are listed, the individual center should be contacted regarding preparations and packaging.

Telephone Books: Look in your new telephone book for information about recycling your old one. Telephone books are usually collected for recycling during only the two months of the year following distribution of your new books.

Rechargeable Batteries and Cell Phones: Due to the numerous locations available to recycle rechargeable batteries and cell phones, they are not listed individually in this Directory. Go to www.rbrc.org or www.gooddeedfoundation.org/aarp or recyclewirelessphones.com to find the closest store for battery and cell phone recycling.

E-waste is electronics waste. Some facilities charge a fee for disposal and some do not. Patrons should contact the center regarding preparation details and costs in advance of disposal.

Vehicle batteries: Stores which sell batteries are required by law to accept one battery for each one purchased. Some stores will accept additional batteries, and some battery dealers will pay a small amount for batteries. All battery dealers have not been listed due to the large number of stores which accept batteries.

Used motor oil: Used oil may be accepted by some service stations and occasionally for a fee since the station may be charged for used oil collection. Some municipal maintenance operations also accept used motor oil and may also charge a fee depending on the quantity disposed.

Used motor oil must not be mixed with other vehicle fluids.

Used motor oil should not be deposited after hours at any location.

Newspapers: Some centers require that newspapers be bagged or tied with string.

Office paper and office pack: Paper clips and, in some cases, staples should also be removed. Glossy and glue bound publications should not be included with office paper or newspapers. Envelopes and "junk mail" should not be included unless specified. Self-adhesive labels (labels which are not water soluble) should be removed from office paper and office pack. Materials which are acceptable for office pack vary from center to center. Check with local recyclers to determine which paper products they will accept and how materials should be separated and packaged.

Corrugated cardboard: Cardboard must be corrugated, clean, and free of debris.

Flat, gray cardboard: The few centers which accept gray, flat cardboard (e.g., cereal boxes) require that it be clean and free of food and other debris.

Glass: Glass beverage and food containers should be rinsed and clean of food or other material. Labels are acceptable. Window glass, mirrors, and drinking glasses cannot be accepted. Metal and plastic lids and metal rings must be removed. Most centers require separation of glass by color.

»»**NOTE: Many centers cannot accept green or blue glass.**««

Aluminum: Aluminum cans should be free of debris and liquid. At most centers, scrap aluminum should be separated from aluminum cans. Scrap aluminum such as aluminum doors and aluminum lawn chairs are accepted by most scrap metal recyclers.

Plastics: Plastics must be clean, dry, and of the specific type accepted by the center. Some centers accept only natural (clear or white) plastics and cannot accept colored plastic containers. Some centers also have limitations about accepting plastic containers which may have been used for motor oil or vegetable oil.

The Society of the Plastics Industry (SPI) has developed this voluntary plastic container coding system that must be referenced prior to taking plastics to a recycling center:

						
PET	HDPE	PVC	LDPE	PP	PS	Other
Polyethylene Terephthalate	High-Density Polyethylene	Polyvinyl Chloride	Low-Density Polyethylene	Polypropylene	Polystyrene	All Other Resins and Layered Multi-Material

«« Cut down on household hazardous waste. Contact DEQ or your local landfill for suggestions about how to reduce household hazardous waste. Use all of the product in the way it was intended, and then you will have only an empty container to discard.»»

Recycling Economic Development Advocates

The Wyoming Small Business Development Center (SBDC) and Manufacturing-Works (MW) encourage economic development with recycling operations. Manufacturing-Works promotes reuse, recycling, chemical substitution, pollution prevention, waste stream management, and waste minimization through use of environmental assessments, recycling methods, and sampling methods. The SBDC and MW offerings include:

- Technical assistance
- Workshop information
- Market Research
- Consultation
- Database listings

Visit the following Web sites for information:

Businesses Utilizing Recyclable Waste in Products

We encourage you to patronize the following businesses. Each business must adhere to strict quality control standards for their finished product and presently have contracts in place for supplies of waste. Therefore, we request that you do not attempt to provide waste materials to these businesses unless the firm is listed in the "Recycling Center" portion of this directory.

CNZ

672-9797

FAX 673-7138

Web site: www.cnz.com

Address: 932 Kroe Lane
Sheridan, Wyoming 82801

Contact: Orrin Connell

Hours: Monday - Friday, 8:00 a.m. to 4:00 p.m.

Product: •Animal bedding from pine wood shavings

GP Gypsum Corporation

548-2283

FAX 548-2209

Mailing address: P. O. Box 756
Lovell, Wyoming 82431

Contact: Bret Savage, Ext. 211

Product: •Wallboard from recycled paper (Recycled paper and paper products are just two of several constituents in this product.)

Note: No paper products are accepted from outside sources.

Product: •Wood-substitute composites

«« Find ways to recycle at work. Some businesses generate large volumes of waste for which recycling options may be available. »»»

Businesses Utilizing Recyclable Waste in Products

South and Jones Timber Co., Inc.

789-2398

Mailing address: P. O. Box 788
Evanston, Wyoming 82930

Contact: Gaylon Thornock

Product: •Wood pellets

Wyoming Tire, Inc.

235-0133

FAX 473-5321

Location: 6925 Cactus Lane, Casper

Mailing address: P. O. Box 1400
Casper, Wyoming 82602

Contact: Dick Ayers

Hours: Monday - Friday, 8:00 a.m. to 5:00 p.m.
Saturday, by appointment

Products:

- Mobile tire shredding operation and disposal available (any quantity, any size)
- Tire shreds for engineering projects, drain fields, & leach field applications
- Crumb rubber for oil field, domestic, and ranch applications
- Used tires & casings from off-highway & agricultural uses converted to livestock feeders and water tanks.
- New and blems—agricultural tires & industrial forklift tires (all sizes)
- Playground material, track & field, equestrian arena & horse corrals
- Anything made from rubber

«« Used tires are now included in some crack seal and composite road surfaces. Some of the road surfaces with tires are still under experiment. Some government contracts require a minimum content of recycled materials. For example, transportation departments may request a minimum amount of used tires in their road construction contracts. »»

«« Ask your city, county, and other local governments to purchase recycled products and to create incentives for recycled products to be purchased. Complete the cycle of recycling. »»

«« If you work in an office, use both sides of paper. You can print draft reports or make copies on one side of paper which has been used on the other side. Some businesses must limit their use of “used paper” since it may carry sensitive information. »»
